ELSEVIER

ENERGY POLICY

Editor: Nicky France

ENERGY POLICY is an international journal published 15 times per year by Elsevier Science Limited. The journal addresses the economic, environmental, political, planning and social aspects of energy supply and utilization which confront decision makers, corporate planners, managers, consultants, politicians and researchers. Major articles cover a comprehensive range of subject areas from national energy pricing to energy efficiency potential in the domestic sector; from the politics of US energy policy to the economic evaluation of nuclear power; from the environmental impacts of energy use to energy demand management in developing countries. The major articles provide balanced appraisals and rigorous analysis. All main articles are referred.

Those wishing to submit articles, communications, viewpoints and reviews should consult the Notes for Authors on the inside back cover, before sending three copies and, if possible, a disk containing the text in WordPerfect and ASCII files to the Editor. Nicky France, 34 Princess Road, Swanage, Dorset BH19 1JQ, UK. *Tel: + 44(0) 1929 426 703; fax: + 44(0) 1929 426 766.*

ENERGY POLICY

Index to Volume 27

January, February, March, April, May, June, July, August, September, October, November, December

Articles – Titles

Coal

Grandfathering and coal plant emissions: the cost of cleaning up the Clean Air Act *F Ackerman, B Biewald, D White, T Woolf and W Moomaw* 27:15, 929–940

Electricity

Analysis of created value added in the electric power sector: a case study of Turkey *N H Sohtaoğlu* 27:4, 195–202

Cycles in competative electricity markets: a simulation of the western United States *A Ford* 27:11, 637–58

Draining the pool: the reform of electricity trading in England and Wales *R Green* 27:9 515–526

Elasticities of electricity demand in India *R K Bose and M Shukla* 27:3, 137–146

Environmental damage costs from fossil electricity generation in Germany and Europe *W Krewitt, T Heck, A Trukenmüller and R Friedrich* 27:3, 173–184

Environmental taxes on fuels and electricity — some experiences from the Nordic countries *J Vehmas, J Kaivo-oja, J Luukkanen and P Malaska* 27:6, 343–356

Regulatory reform in the Spanish electricity industry: a missed opportunity for competition *P Arocena, K-U Kühn and P Regibeau* 27:7, 387–400

Residential lighting in Lithuania *E Kazakevicius, A Gadgil and D Vorsatz* 27:10, 603–612

Brazilian electrical system reform *A F Mendonça and C Dahl* 27:2, 73–84

Energy conservation and efficiency

A cost-neutral energy strategy incorporating renewables and energy-efficiency for the city of Manaus in Brazilian Amazonia *A Gadgil, G M Jannuzzi, E Silva and M-L Leonardi* 27:6, 357–368

An analysis of the effect of Government grants on the uptake of home insulation measures *L D Shorrock* 27:3, 155–172

Contracting knowledge: the organizational limits to interdisciplinary energy efficiency research and development in the US and the UK *L Lutzenhiser and E Shove* 27:4, 217–228

Energy efficiency and environmental improvements in small-scale industries *N Dasgupta* 27:13, 789–810

Energy and the use of conservation tillage in US agriculture *N D Uri* 27:5, 299–306

Evaluation of energy audits and the regulator *A Larsen and M Jensen* 27:9 557–564

Energy and the environment

The alcohol program *J R Moreira and J Goldemberg* 27:4, 229–246

An appropriate mechanism of fuels pricing for sustainable development *G Barbiroli and A Focacci* 27:11, 625–36

An effective allocation criterion for CO_2 emissions *S Gupta and P M Bhandari* 27:12, 727–36

CAFE compliance by light trucks: economic impact of clean diesel engine *A Teotia, A Vyas, R Cuenca, F Stodolsky and J Eberhardt* 27:15, 889–900

Choosing an energy future: the environmental impact of end-use technologies *F Manzini and M Martinez* 27:7, 401–414

Climate change policy: quantifying uncertainties for damages and optimal carbon taxes *T Roughgarden and S H Schneider* 27:7, 415–430

Climate-change policies and international rate-of-return differentials *A S Manne and G Stephan* 27:6, 309–316

Costs of a ceiling on Kyoto flexibility *D Gusbin, G Klaassen and N Kouvaritakis* 27:14, 833–844

Energy and carbon taxes and their distributional implications *S Speck* 27:11, 659–68

Energy efficiency and environmental improvements in small-scale industries *N Dasgupta* 27:13, 789–810

Energy and the use of conservation tillage in US agriculture *N D Uri* 27:5, 299–306

Environmental damage costs from fossil electricity generation in Germany and Europe *W Krewitt, T Heck, A Trukenmüller and R Friedrich* 27:3, 173–184

Environmental impacts of energy *I Dincer* 27:14, 845–854

Environmental taxes on fuels and electricity — some experiences from the Nordic countries *J Vehmas, J Kaivo-oja, J Luukkanen and P Malaska* 27:6, 343–356

Global warming: discounting in not the issue, but substitutability is *E Neumayer* 27:1, 33–44

Grandfathering and coal plant emissions: the cost of cleaning up the Clean Air Act *F Ackerman, B Biewald, D White, T Woolf and W Moomaw* 27:15, 929–940

Greenhouse gas emissions related to Dutch food consumption *K J Kramer, H C Moll, S Nonhebel and H C Wilting* 27:4, 203–216

JI/CDM crediting under the Kyoto Protocol: does 'interim period banking' help or hinder GHG emissions reduction? *S Parkinson, K Begg, P Bailey and T Jackson* 27:3, 129–136

Marginal abatement costs of CO_2 emission reductions, geographical flexibility and concrete ceilings: and assessment of using the POLES model *P Criqui, S Mima and L Viguier* 27:10, 585–602

Richer and cleaner? A study on carbon dioxide emissions in developing countries *M Galeotti and A Lanza* 27:10, 565–74

Stabilizing atmospheric CO_2 concentrations: technical, political and economic dimensions *L J Valverde A Jr and M D Webster* 27:10, 613–22

The economics of climate change and the theory of discounting *C Philbert* 27:15, 913–927

Energy modelling

Computational methods for planning and evaluating geothermal energy projects *M G Goumas, V A Lygerou and L E Papayannakis* 27:3, 147–154

Cycles in competative electricity markets: a simulation of the western United States *A Ford* 27:11, 637–58

Marginal abatement costs of CO_2 emission reductions, geographical flexibility and concrete ceilings: and assessment of using the POLES model *P Criqui, S Mima and L Viguier* 27:10, 585–602

Modelling OPEC behavior: theories of risk aversion for oil producer decisions *D B Reynolds* 27:15, 901–912

Perspectives on global energy futures: simulations with the TIME model *B de Vries, M Janssen and A Beusen* 27:8, 477–494

Price, cost and exploration sensitivities of prospective activity levels in the UKCS: an application of the Monte Carlo technique *A G Kemp and L Stephen* 27:13, 801–810

Uncertainty in integrated assessment models: modelling with miniCAM 1.0 *M J Scott, R D Sands, J Edmonds, A M Liebetrau and D W Engel* 27:14, 855–879

Energy policy and analysis

Analysis of created value added in the electric power sector: a case study of Turkey *N H Sohtaoğlu* 27:4, 195–202
An analysis of the effect of Government grants on the uptake of home insulation measures *L D Shorrock* 27:3, 155–172
An appropriate mechanism of fuels pricing for sustainable development *G Barbiroli and A Focacci* 27:11, 625–36
Climate change policy: quantifying uncertainties for damages and optimal carbon taxes *T Roughgarden and S H Schneider* 27:7, 415–430
Climate-change policies and international rate-of-return differentials *A S Manne and G Stephan* 27:6, 309–316
Developing a database of energy use in the UK non-domestic building stock *N D Mortimer, A Ashley, M Elsayed, M D Kelly and J H R Rix* 27:8, 451–468
Energy and carbon taxes and their distributional implications *S Speck* 27:11, 659–68
Energy sector liberalization in Kenya: critical policy issues in petroleum retail market *B A Okech and P M Nyoike* 27:1, 45–56
European natural gas: market forces will bring about competition in any case *M Radetzki* 27:1, 17–24
Evaluation of energy audits and the regulator *A Larsen and M Jensen* 27:9 557–564
Gas in Europe — the thrust for change *M Raketzki* 27:1, 1–2
Global warming: discounting in not the issue, but substitutability is *E Neumayer* 27:1, 33–44
JI/CDM crediting under the Kyoto Protocol: does 'interim period banking' help or hinder GHG emissions reduction? *S Parkinson, K Begg, P Bailey and T Jackson* 27:3, 129–136
Manufacturing energy use in OECD countries: decomposition of long term trends *F Unander, S Karbuz, L Schipper, M Khrushch and M Ting* 27:13, 769–778
Removing the government from European gas *P Heron* 27:1, 3–8
Supply- and demand-side effects of carbon tax in the Indonesian power sector: and integrated resource planning analysis *C O P Marpaung and R M Shrestha* 27:4, 185–194
Technology policy and renewable energy: public roles in the development of new energy technologies *J M Loiter and V Norberg-Bohm* 27:2, 85–98
The gas deregulation process in Europe: economic and political approach *J Percebois* 27:1, 9–16
Toward marginal cost pricing of accident risk: the energy, travel and welfare impacts of pay-at-the-pump auto insurance *C Kavalec, and J Woods*, 27:6, 331–342

Energy security and world trade

Foreign direct investment in China's power sector: trends, benefits and barriers *A Backman and X Wu* 27:12, 695–712

Energy supply and demand

An appropriate mechanism of fuels pricing for sustainable development *G Barbiroli and A Focacci* 27:11, 625–36
Analysis of created value added in the electric power sector: a case study of Turkey *N H Sohtaoğlu* 27:4, 195–202
Cycles in competative electricity markets: a simulation of the western United States *A Ford* 27:11, 637–58
Draining the pool: the reform of electricity trading in England and Wales *R Green* 27:9 515–526
Elasticities of electricity demand in India *R K Bose and M Shukla* 27:3, 137–146
Energy demand until 2010 in Ukraine *M Horn* 27:12, 713–26
European natural gas: market forces will bring about competition in any case *M Radetzki* 27:1, 17–24
Interfuel competition in the industrial sector of seven OECD countries *P Renou-Maissant* 27:2, 99–110
Market imperfections on the power markets in northern Europe: a survey paper *K Skytte* 27:1, 25–32
Supply- and demand-side effects of carbon tax in the Indonesian power sector: and integrated resource planning analysis *C O P Marpaung and R M Shrestha* 27:4, 185–194
Use value, exchange value and resource scarcity *D I Stern* 27:8, 469–476

Energy technology

The alcohol program *J R Moreira and J Goldemberg* 27:4, 229–246
Capacity development and profitability of wind turbines *P E Morthorst* 27:13, 779–787
Choosing an energy future: the environmental impact of end-use technologies *F Manzini and M Martinez* 27:7, 401–414
Dynamics of energy technologies and global change *A Grübler, N Nakićenović and D G Victor* 27:5, 247–280
Stabilizing atmospheric CO_2 concentrations: technical, political and economic dimensions *L J Valverde A Jr and M D Webster* 27:10, 613–22
Technology policy and renewable energy: public roles in the development of new energy technologies *J M Loiter and V Norberg-Bohm* 27:2, 85–98

LDCs

A cost-neutral energy strategy incorporating renewables and energy-efficiency for the city of Manaus in Brazilian Amazonia *A Gadgil, G M Jannuzzi, E Silva and M-L Leonardi* 27:6, 357–368
Energy in central Asia and northwest China: major trends and opportunities for regional cooperation *J P Dorian, U T Abbasovich, M S Tonkopy, O A Jumabekovich and Q Daxiong* 27:5, 281–298
Energy sector liberalization in Kenya: critical policy issues in petroleum retail market *B A Okech and P M Nyoike* 27:1, 45–56
Foreign direct investment in China's power sector: trends, benefits and barriers *A Backman and X Wu* 27:12, 695–712
Indian wind energy programme: performance and future directions *B Rajsekhar, F Van Hulle and J C Jansen* 27:11, 669–78
Richer and cleaner? A study on carbon dioxide emissions in developing countries *M Galeotti and A Lanza* 27:10, 565–74
Supply- and demand-side effects of carbon tax in the Indonesian power sector: and integrated resource planning analysis *C O P Marpaung and R M Shrestha* 27:4, 185–194

National and regional energy profiles and government policy

Analysis of created value added in the electric power sector: a case study of Turkey *N H Sohtaoğlu* 27:4, 195–202
Developing a database of energy use in the UK non-domestic building stock *N D Mortimer, A Ashley, M Elsayed, M D Kelly and J H R Rix* 27:8, 451–468
Draining the pool: the reform of electricity trading in England and Wales *R Green* 27:9 515–526
Elasticities of electricity demand in India *R K Bose and M Shukla* 27:3, 137–146
Energy in central Asia and northwest China: major trends and opportunities for regional cooperation *J P Dorian, U T Abbasovich, M S Tonkopy, O A Jumabekovich and Q Daxiong* 27:5, 281–298
Energy demand until 2010 in Ukraine *M Horn* 27:12, 713–26
Energy sector liberalization in Kenya: critical policy issues in petroleum retail market *B A Okech and P M Nyoike* 27:1, 45–56
Energy and the use of conservation tillage in US agriculture *N D Uri* 27:5, 299–306
Environmental taxes on fuels and electricity — some experiences from the Nordic countries *J Vehmas, J Kaivo-oja, J Luukkanen and P Malaska* 27:6, 343–356
European natural gas: market forces will bring about competition in any case *M Radetzki* 27:1, 17–24
Evaluation of energy audits and the regulator *A Larsen and M Jensen* 27:9 557–564
Evidence of under-investment in energy R & D in the United States and the impact of Federal policy *R M Margolis and D M Kammen* 27:10, 575–84
Gas in Europe — the thrust for change *M Raketzki* 27:1, 1–2
Greenhouse gas emissions related to Dutch food consumption *K J Kramer, H C Moll, S Nonhebel and H C Wilting* 27:4, 203–216
Interfuel competition in the industrial sector of seven OECD countries *P Renou-Maissant* 27:2, 99–110

Management background, corporate governance and industrial restructuring: the Japanese upstream petroleum industry *G Pollio and K Uchida* 27:14, 813–832
Manufacturing energy use in OECD countries: decomposition of long term trends *F Unander, S Karbuz, L Schipper, M Khrushch and M Ting* 27:13, 769–778
Market imperfections on the power markets in northern Europe: a survey paper *K Skytte* 27:1, 25–32
Regulatory reform in the Spanish electricity industry: a missed opportunity for competition *P Arocena, K-U Kühn and P Regibeau* 27:7, 387–400
Removing the government from European gas *P Heron* 27:1, 3–8
Residential lighting in Lithuania *E Kazakevicius, A Gadgil and D Vorsatz* 27:10, 603–612
Supply- and demand-side effects of carbon tax in the Indonesian power sector: and integrated resource planning analysis *C O P Marpaung and R M Shrestha* 27:4, 185–194
Brazilian electrical system reform *A F Mendonça and C Dahl* 27:2, 73–84
The gas deregulation process in Europe: economic and political approach *J Percebois* 27:1, 9–16
The Russian oil industry restructuration: towards the emergence of western type enterprises? *C Locatelli* 27:8, 435–450

Nuclear power

Economic and safety pressures on nuclear power: a comparison of Russia and Ukraine since the break-up of the Soviet Union *S Thomas* 27:13, 745–767

Oil and gas

The alcohol program *J R Moreira and J Goldemberg* 27:4, 229–246
Energy sector liberalization in Kenya: critical policy issues in petroleum retail market *B A Okech and P M Nyoike* 27:1, 45–56
European natural gas: market forces will bring about competition in any case *M Radetzki* 27:1, 17–24
The gas deregulation process in Europe: economic and political approach *J Percebois* 27:1, 9–16
Gas in Europe — the thrust for change *M Raketzki* 27:1, 1–2
C Kavalec, and J Woods, Toward marginal cost pricing of accident risk: the energy, travel and welfare impacts of pay-at-the-pump auto insurance 27:6, 331–342
Management background, corporate governance and industrial restructuring: the Japanese upstream petroleum industry *G Pollio and K Uchida* 27:14, 813–832
Modelling OPEC behavior: theories of risk aversion for oil producer decisions *D B Reynolds* 27:15, 901–912
Price, cost and exploration sensitivities of prospective activity levels in the UKCS: an application of the Monte Carlo technique *A G Kemp and L Stephen* 27:13, 801–810
Profit, productivity and price differential: an international performance comparison of the natural gas transportation industry J-D Lee, S-B Park and T-Y Kim 27:11, 679–90
Removing the government from European gas *P Heron* 27:1, 3–8
Risk : reward sharing contracts in the oil industry the effects of bonus:penalty schemes *A G Kemp and L Stephen* 27:2, 111–120
Risk sharing and incentives in Norwegian petroleum extraction *P Osmundsen* 27:9 549–556
The Russian oil industry restructuration: towards the emergence of western type enterprises? *C Locatelli* 27:8, 435–450

Renewables

A cost-neutral energy strategy incorporating renewables and energy-efficiency for the city of Manaus in Brazilian Amazonia *A Gadgil, G M Jannuzzi, E Silva and M-L Leonardi* 27:6, 357–368
Appraising renewable energy developments in remote communities: the case of the North Assynt Estate, Scotland *N Hanley and C Nevin* 27:9 527–548
Capacity development and profitability of wind turbines *P E Morthorst* 27:13, 779–787
Computational methods for planning and evaluating geothermal energy projects *M G Goumas, V A Lygerou and L E Papayannakis* 27:3, 147–154
Generating interest, generating power: commercializing photovoltaics in the utility sector *A W Kaplan* 27:6, 317–330
Indian wind energy programme: performance and future directions *B Rajsekhar, F Van Hulle and J C Jansen* 27:11, 669–78
Technology policy and renewable energy: public roles in the development of new energy technologies *J M Loiter and V Norberg-Bohm* 27:2, 85–98
The Market for solar photovoltaics *M Oliver and T Jackson* 27:7, 371–386

The role of utilities

Analysis of created value added in the electric power sector: a case study of Turkey *N H Sohtaoğlu* 27:4, 195–202
Draining the pool: the reform of electricity trading in England and Wales *R Green* 27:9 515–526
Generating interest, generating power: commercializing photovoltaics in the utility sector *A W Kaplan* 27:6, 317–330
Regulatory reform in the Spanish electricity industry: a missed opportunity for competition *P Arocena, K-U Kühn and P Regibeau* 27:7, 387–400
